- Client & Supplier Relationship Management
- Multi-Modal Transportation Awareness

PROFILE

Highly motivated and results-oriented professional with a strong interest in the logistics sector. Holding an MBA in International Transportation and Logistics Management, seeking a challenging role to apply strategic planning and optimization skills in enhancing supply chain efficiency. Committed to contributing expertise in logistics management for streamlined operations and organizational success.

WORK EXPERIENCE

Customer Service Intern

Aims International Logistics, UAE

06/2024 - 07/2023

At Aims Logistics, I honed my skills in air freight and air express door-to-door operations. I successfully cultivated strong relationship with clients and suppliers, negotiating favorable freight rates. In addition to my primary responsibilities, I gained valuable experience in sea and land transportation.

Network Assistant

Caits info solutions, Kochi

10/2022 - 03/2023

Leveraged technical skills at Caits Info Solutions as a Configuration Network Assistant. In this role, I gained valuable experience in network configuration, including system hardware setup, CCTV installation and configuration, and switching configuration.

L1 Engineer

Soffit Infrastructure Services (P) Ltd

04/2023 - 09/2023

As an L1 Engineer within the Network Operations Center (NOC) team at Soffit Infrastructure Services, I gained valuable experience in monitoring and call services. This role allowed me to develop my technical skills.
