MUHAMMAD AASHIR TASSAVER

CREW SCHEDULER | FATIGUE RISK MANAGEMENT SPECIALIST

Professional Summary

Dedicated and detail-oriented Crew Scheduler with 2 years of experience as a Roster Planner and nearly 3 years of overall experience in aviation operations. Recognized as an expert in the implementation and compliance of the new ANO-012-FSXX Version 7.0, with extensive knowledge of its application in aviation operations. Entrusted with the responsibility of training schedulers at Airblue, ensuring seamless adoption of the updated regulations. Proven expertise in developing and optimizing crew rosters, maintaining regulatory compliance, and introducing process automation to enhance operational efficiency. Adept at managing complex scheduling requirements, streamlining processes, and collaborating with cross-functional teams to ensure smooth and efficient operations in a dynamic aviation environment.

Key Skills

- Crew Scheduling and Roster Planning
- Fatigue Risk Management (FRM) Training and Implementation
- Regulatory Compliance (ANO-012-FSXX)
- Process Automation and Optimisation
- Communication and Team Collaboration
- Aviation Safety Standards and Operational Coordination
- Proficiency in Crew Scheduling Software (HITIT, ZAPWAYS)

Professional Experience

Airblue Ltd. | Assistant Crew Scheduler *Sep 2022 – Present*

- Developed and optimised rosters for pilots and cabin crew, factoring in rotations, annual leave, and training requirements while adhering to regulatory guidelines.
- Ensured compliance with Airblue's Operations Manual, Flight Time Limitations, and other regulatory standards in all crew schedules.
- Distributed flight duties equitably across crew members, ensuring efficient route planning and cost control.
- Maintained standby coverage to balance logistical costs and operational needs effectively.
- Verified minimum crew compositions, communicated adjustments with the Crew Roster Training team, and arranged logistics for layovers.
- Collaborated with Crew Roster Training on schedule changes and optimised rescheduling for training sessions.
- Organised hotel accommodations and ground transportation for crew layovers as required.

- Introduced automation in roster marking, achieving a 60% reduction in preparation time and improving overall efficiency.

Airblue Ltd. | Fatigue Risk Management Specialist

- Certified in Fatigue Risk Management (FRM) and a leading contributor to the transition from ANO-012-FSXX-6.0 to ANO-012-FSXX-7.0.
- Developed the FRM Manual for Airblue, implementing protocols to mitigate fatigue risks and improve safety standards.
- Delivered FRM training to crew members and operational teams, fostering a culture of safety and compliance.

Operation Pro Pvt Ltd. | Sales Executive

Jun 2022 – Sep 2022

- Effectively managed stockroom operations, ensuring accurate inventory control and efficient stock replenishment.
- Conducted regular stock audits to maintain inventory accuracy, reducing discrepancies and improving stock tracking.
- Collaborated with procurement teams to forecast stock needs and maintain optimal inventory levels.
- Streamlined stock management processes, reducing lead times for stock requests and enhancing operational efficiency.
- Trained and mentored stockroom staff, fostering a motivated and competent team.

YouTube Channels | Content Strategist

2018 – Present

- Created high-performing scripts and strategies, generating over 10 million views in aviation, technology, and crime domains.
- Designed and optimized SEO-driven content to enhance audience engagement and channel growth. - Developed engaging storylines tailored to diverse audiences, ensuring high viewer retention and repeat engagement.
- Conducted in-depth research on trending topics to create unique and compelling YouTube scripts that align with channel objectives.

Pakistan International Airlines Ltd. | Intern

Jul 2021 – Sep 2021

- Assisted in planning and managing crew schedules, ensuring compliance with Flight Time Limitations and operational guidelines.
- Coordinated with multiple departments to adjust schedules and resolve logistical challenges in daily operations.
- Monitored operational requirements to recommend efficient resource allocation for seamless flight operations.
- Gained insights into scheduling tools and regulatory compliance, enhancing knowledge of operational efficiency.
